

PHILOSOPHY & PURPOSE

Greenhills Primary School is tucked away in a quiet residential cul-de-sac in the outer northern suburb of Greensborough. We have an enrolment of around 520 students, with the majority residing in the immediate locality.

Our school enjoys a well-deserved reputation for education excellence and a wonderful community of parents and students. We work hard to foster a close relationship between the school, the parents and the wider community, and we encourage an 'open door' policy, where families are invited to actively participate in all aspects of school life.

Greenhills is committed to providing a safe, stimulating and secure learning environment, where all students, no matter their gender, ability, culture or circumstances, are able to experience a comprehensive curriculum and have the opportunity to reach their full potential.

We endeavour to foster young people who are well-rounded, resilient and confident, as well as flexible, responsible and creative students, preparing them to meet the challenges of a society where knowledge is highly valued and constantly changing.

Students have the opportunity to experience success through a varied and challenging curriculum, with a particular emphasis placed on Literacy & Numeracy. Greenhills also features specialist programs in Performing Arts (music), Visual Arts, Italian, Physical Education & Sport, STEAM (Science, Technology, Engineering, Arts & Maths).

Additional assistance programs are provided to students with special needs.

Computers and iPads are used in all classrooms, from Prep to Grade 6, to support the curriculum and to establish technology as a regular part of all learning.

We offer a current and relevant curriculum, professionally delivered, whole-school approach to teaching and learning, using leading ITC technology to support learning. Literacy and Numeracy are priority curriculum areas and we have dedicated teaching support throughout the day in these key areas.

At Greenhills Primary School, we are very proud of the children who make up our school and the part that we play in their development. We build positive relationships with our school community and nurture happy, confident and well-balance students. In partnerships with parents, we will work together to provide your children with the skills, knowledge and values that will support them as they grow up in a complex and changing society.

The focus of the Principal of Greenhills Primary is to ensure its students are given the environment in which to thrive and the opportunities, support and encouragement to achieve their very best. This is achieved when students, teachers and parents are unified in their outlook and can partner effectively.

At Greenhills Primary, we deliver a comprehensive education built around the core pillars of literacy, numeracy and curiosity. The many extra-curricular and leadership opportunities provided to our students helps to create an engaging and interesting environment which promotes student voice and agency.

In addition, we are committed to developing our students into the best individuals they can be through a program built on our values of Grit, Respect, Effort, Adventure & Teamwork. In this way we aim to best prepare our students for the next stage of their learning journey as they move to secondary school.
